About Me

Dedicated Full Stack Developer Skilled in HTML, CSS, JavaScript, React, Node.js, MySQL, MongoDB, Mern Stack, Git. With a knack for designing user-centric interfaces and developing resilient server-side solutions, I thrive on turning ideas into reality. Whether it's collaborating with a team or independently spearheading projects, I bring enthusiasm and efficiency to every stage of development.

Skills

Front End: HTML, CSS, JavaScript, React, jQuery, Bootstrap, tailwind, handlebars.

Back End: Node.js, Express, MySQL, MongoDB, GraphQL, REST.

Full Stack: Mern Stack.

Languages: JavaScript, Java, Python, TypeScript.
